

Amendments to the Specification

Please add the following paragraph:

[0007.1] Fig. 3 shows a suspension system comprising an upper suspension arm 21, a lower suspension arm 23, a steering knuckle 25, tapered spindles 27, further including the present invention: a tapered insert comprising a securing bolt 1, an upper tapered insert 3, a lower tapered insert 9, a washer 11, and a securing nut 13.

Please replace paragraph [0009] with the following amended paragraph:

[0009] The vehicle suspension system comprises an upper (Fig. 3, 21) and lower (Fig. 3, 23) suspension arm, an upper and lower ball joint and a steering knuckle (Fig. 3, 25). Additionally it includes tie rods to which tie rod ends are attached. These tie rod ends are attached to a steering stem or steering box which enables the vehicle to be steered. The new embodiment (Fig. 1), is and/or can be used at the end of the upper and lower suspension arms where attached to the spindle (Fig. 3, 27) and at the ends of the tie rods where attached to the steering stem or box and the steering knuckle.
